

Logistics

Beside the intensive care of the German market international customers are a focus of our business activities. More than half of our service is performed for foreign partners. FWW offers technological-logistical service of complete vehicle systems with worldwide repair service as well as training support and spare parts delivery. Furthermore FWW is specialized in worldwide delivering of fully overhauled vehicles, special equipment and spare parts.

Based on a close network of partners and own resources FWW can satisfy the worldwide demands of its customers with its products and services.
